

TWILL TAPE PRINTING TEMPLATE

by Genoveva von Lübeck - <http://www.honorbeforevictory.com>

Place 1" twill tape here, lined up with the red box. It must be as flat as possible; iron if necessary. Tape the top and bottom and press the tape down well.

Notes: Attempting to do more than one tape at a time on a single piece of paper resulted in paper jams for me. This is the orientation and position that worked best!
